EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jane Licata on or about 11-7-03.

The application has been amended as follows:

In claim 1, line 1, -- a compound -- has been replaced with "an oligonucleotide".

In claims 2, 4-10 and 12, line 1, "compound" has been replaced with -- oligonucleotide--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claimed invention is free of the prior art of record because the prior art of record does not teach or fairly suggest an antisense oligonucleotide 8 to 80 nucleobases in length targeted to nucleobases 67 through 144, or nucleobases 258 through 1684 of SEQ ID NO: 3 encoding hematopoietic cell protein tyrosine kinase, nor a method of inhibiting the

expression of hematopoietic cell protein tyrosine kinase in vitro comprising the administration of this antisense oligonucleotide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
